

HAS SUPPORT OF NINE GOVERNORS

PLEDGES RECEIVED AT TAFT CAMPAIGN HEADQUARTERS.

Announcement Given as Answer to Chicago Conference of Seven Republican Governors—Taft Man- agers Claim Three Others.

Washington, Feb. 27.—Telegraphic pledges of support from nine Republican governors were given out here tonight from the campaign headquarters of President Taft.

The executives going on record in favor of the president's re-nomination were: Governor Dyer, Minnesota; Governor Dyer, Minnesota; Governor Dyer, Minnesota; Governor Dyer, Minnesota; Governor Dyer, Minnesota; Governor Dyer, Minnesota; Governor Dyer, Minnesota; Governor Dyer, Minnesota; Governor Dyer, Minnesota.

In addition to the signed statements made public, the Taft managers claimed the support of Governors Deneen, Illinois; Odell, Nevada; and Mead, Vermont.

The announcement from the Taft bureau is taken as an answer to the Chicago conference of seven governors upon whose application Col. Roosevelt had his formal entry into the presidential contest.

Twenty-two states now have Republican governors and all except two are now accounted for in the various statements of presidential preferences. They are listed as follows:

Declared for Taft, 9; claimed by Taft managers, 3.

Declared for Roosevelt, 7.

Declared for LaFollette, 1.

Preference not announced, 2.

The governors who have declared for Roosevelt are: Glasscock, West Virginia; Aldrich, Nebraska; Bass, New Hampshire; Osborn, Michigan; Stubbs, Kansas; Hadley, Missouri; and Johnson, California.

Governor Carey of Wyoming also signed the "governors' letter" urging Col. Roosevelt to become a candidate, but it is now said has declared new judgment. Neither has Governor Vessey of South Dakota announced his choice. The California executive did not sign the letter, but has since declared for the former president.

Governor McGovern of Wisconsin is committed to the candidacy of Senator LaFollette.

Record Entries to Re-election.

The nine governors who have come out for President Taft, all take the position that his record entitles him to re-nomination and election.

Following are the more striking extracts taken from the governors' dispatches:

Eberhart, Minnesota—"President Taft's administration, measured by all standard of accomplishment and fidelity to duty, entitles him to the endorsement of a second term, which I believe the inherent sense of fairness and justice of the American people will ungrudgingly give him."

Carroll, Iowa—"There is no justice in the opposition to President Taft. His administration has been clean and capable, and in harmony with platform pledges. A just and righteous application of the square deal would accord him re-nomination without a contest."

Hay, Washington—"Few administrations can point to the enactment of so many wise and progressive laws as that of President Taft. I feel it the duty of every true progressive Republican to support Mr. Taft for re-nomination and re-election."

Goldsborough, Maryland—"It is my opinion that President Taft has given the country one of the best administrations in its history. I firmly believe that when the record of the Republican party under his wise leadership is fully made known to the people they will rally to his standard, re-nominate and re-elect him."

Tener, Pennsylvania—"In view of the able manner in which President Taft has conducted his office, the constructive and substantial achievements of his administration, I unhesitatingly predict his re-election."

Hooper, Tennessee—"President Taft is personally popular in Tennessee and his administration commands general public confidence. The state organization is loyally supporting the president and from present indications he will get the vote of Tennessee in the national convention."

Spry, Utah—"I am glad to reiterate my personal preference for Mr. Taft as presidential nominee. I regard him as the most logical as well as the strongest man whose name has been mentioned with the Republican presidential nomination. It is confident that Utah will send a Taft delegation to the national convention."

Penwell, Delaware—"I am strongly in favor of President Taft's re-nomination. His splendid record should insure his re-election by a large majority."

Potter, Rhode Island—"President Taft is a safe man at the head of the nation. His administration has been able and statesmanlike in the broadest sense. His record entitles him to re-nomination in which event he should receive a most emphatic popular endorsement."

In making public the governors' telegrams the Taft bureau also says that Republican gubernatorial candidates in the last election in states now headed by Democratic executives, but which are counted potentially Republican, have almost unanimously declared for Taft.

ENTERS PLEA OF GUILTY

Detective Employed by Darrow in McNamara Case in Court Yesterday.

Los Angeles, Calif., Feb. 27.—Guilty of having attempted to "influence" Robert Bain, the first juror sworn to try James B. McNamara, the confessed dynamiter now serving life term in San Quentin prison, was the plea entered today by Bert Franklin, a detective employed by Clarence S. Darrow. The original charge against Franklin of having bribed Bain was dismissed.

Darrow's case was called in the superior court today relative to a formal continuance of the settling of his trial pending action by the district court of appeals on writs of prohibition and mandate filed by his attorneys in an effort to obtain a transcript of all testimony heard by the grand jury which indicted him.

Presiding Judge Hutton of the superior court reversed his ruling of last Friday and held that Darrow was entitled to a full transcript of the evidence on which the grand jury indicted him for alleged bribery.

WANTS LATER DATE

Democratic Leader Favors Postponing National Convention Now That Roosevelt Has Entered the Presi- dential Race.

Washington, Feb. 27.—Senator Bacon of Georgia, one of the Democratic leaders in the senate, today declared in favor of postponing the Democratic convention in Baltimore, which has been called for June 25, until a later date, because, as now arranged, it would be held only a week after the Republican convention in Chicago.

"The entrance of Mr. Roosevelt into the contest for the Republican nomination for the presidency," Senator Bacon said, "has complicated things that the Democratic national convention should take steps to postpone the time for holding the Democratic convention."

"The Republican convention is called for June 18, the Democratic convention June 25, just a little later. At the best there cannot be more than three days between the adjournment of the Republican and the meeting of the Democratic convention. Who knows that there will not be such a conflict of views as to the platform and aspirations of candidates as to prolong the Republican convention beyond the time of the meeting of the Democratic convention?"

"In that event the Democrats would be in no position to give proper consideration of the situation and I think the meeting of our convention should be deferred for two or three weeks beyond the date now fixed to insure such an opportunity as it is presented."

CRITICISM BY TEXAS SENATOR

President Taft Heard Bailey De- nounce Roosevelt's Third Term Ambitions.

Washington, Feb. 27.—President Taft to night heard Senator Bailey of Texas denounce Theodore Roosevelt's third term ambitions and saw 600 members of the University club rise to their feet from a score of banquet tables and stand several minutes applauding the utterances.

Senator Bailey declared that if the present president is not a good enough Republican to succeed himself, he must be a good enough Democrat to do so.

He jokingly invited the president in case of failure at the Chicago convention to enter the Democratic party.

The president confined his speech to the value of university training. He laughingly asked Senator Bailey to tell him which branch of the Democratic party he would be received in, but made no other political reference, except to chide his hearers for applause of political remarks.

TO CONTEST WILL.

Sterling, Ill., Feb. 27.—A bill was filed in the Whiteside county court today to contest the will of the late John F. Burke, who bequeathed \$40- 000 to Saint Mary's Catholic church here. The petition alleged that the church is not incorporated, accord- ing to the laws of the state and has no authority to build or maintain a school, such as was indicated by Burke in his will. Mrs. Margaret Burke, mother of John F. Burke, and her children, filed today's bill in the case.

GUILTY OF MURDER.

Harrisburg, Ill., Feb. 27.—Peter Scanlon today pleaded guilty to mur- dering John W. Lane, a civil war veteran, who lived at Carver Mills. The murder occurred October 23, 1911.

Lane was beaten to death. The lone between the two men originated from testimony given by Lane before a grand jury.

FOR SOCIAL PURPOSES.

St. Louis, Mo., Feb. 27.—The es- tablishment of a social center at every school and the use of public school buildings for social and rec- reational purposes as well as edu- cational purposes was advocated by delegates to the special sessions of the department of superintendence. National Education association to- day.

FORTIFICATIONS BILL PASSED

NO MONEY FOR COAST DEFENSE OF CAPE HENRY.

Story of Bain in the Past and Hostile Fleet Fails to Have Effect on Members of the House—Other Washington News.

Washington, Feb. 27.—Phantom fleets of hostile battleships and the smoldering ruins of capitals, the capitulation of Washington, Philadelphia, Baltimore and Norfolk and the invasion of the hills of Virginia portrayed in the house today, failed to procure an appropriation of \$150,000 for a site of a proposed coast defense on Cape Henry.

Representative Holland of Virginia offered an amendment to the fortifications bill which was under consideration. Argument followed but at his close the proposed Fort Cape Henry failed.

The appropriation bill was passed without any restrictions on private purchases of powder by the government. Representative Good renewed his attack on the powder trust, but lost.

The passage of the fortifications bill today puts the house abreast of the progress of the long session of last year. The army pension and fortifications bills are now before the senate.

With the coast defense bill out of the way the house immediately took up the agricultural appropriation bill, which carries \$15,835,070, which is \$1,003,040 lower than that for the current year and \$1,402,285 below the estimates of Secretary Wilson. A fight is expected over the bill tomorrow.

MONEY TRUST INQUIRY.

The subcommittee of the house committee on banking and currency which is to investigate the money trust, today made recommendations of procedure, which it is said, urge that the charges of alleged control of the money power over the capital of trusts, railroads, banking and the New York stock exchange, be investigated. Chairman Hull of the full committee announced hearings will begin within a few days.

Headlocked on Sugar Schedule.

The ways and means committee of the house still is headlocked on the sugar tariff schedule. Members of the committee today considered the advisability of taking raw rubber from the free list as a means of raising revenue that would be lost by reducing the sugar duty.

"At the most," said Chairman Underwood, "by putting rubber on the dutiable list, we could not raise more than \$5,000,000. That would not make up for the loss of from \$25,000,000 to \$30,000,000 that will be inevitable in a big cut on the sugar schedule."

"We hope, however, to agree upon a bill this week," he continued. "We have had many schedules prepared only to be torn up and thrown in the waste-basket. I think we can agree and if we can't we will have to give up. As soon as we agree we will submit the bill to a caucus."

EXCITEMENT IN COURT.

Uproar Caused by Action of Specta- tor During Murder Trial.

Chicago, Feb. 27.—Judge McKinley's court, where William J. Boner, former organizer of Chicago Typographical Union, No. 16, is on trial charged with the murder of Rush V. Denon, a non-union printer, was the scene of excitement to day.

Late in the afternoon session of court, an unidentified man leaped from his seat in the rear of the court room and at the top of his voice shouted:

"Give it to him; give it to him."

Immediately the court room was thrown into an uproar. Deputy sheriffs rushed toward the man as he ran up to Judge McKinley's high desk. A hand-to-hand fight between the man and deputy sheriffs occurred. The man was released after the court had instructed the bailiffs to take him outside of the criminal court building.

TO MEET IN SPRINGFIELD.

Republican Convention to Be Held April 10.

Chicago, Feb. 27.—Members of the Republican state central committee today selected Springfield as the city in which to hold the Republican state convention April 19. The selection of presidential electors, the naming of eight delegates at large to the Republican national convention and the nomination of three candidates for trustees to the University of Illinois will be the chief duties of the convention. A state platform also will be drafted.

DENEEN NOT MIXING.

Bloomington, Ill., Feb. 27.—Governor Deneen, who spoke here to- night, when shown the statement from Washington that he was count- ing as a supporter of President Taft made the following statement:

"I am in favor of giving Mr. Taft a preferential presidential vote at the primary. Further than this I have nothing to say. I am not mixing such matters in with my own political campaign."

DR. JAMES RETURNS.

Chicago, Feb. 27.—Dr. Edmund James, president of the Uni- versity of Illinois arrived here to- day from a tour of Europe. Dr. James said he made his trip for the pur- pose of inspecting European educa- tional institutions with a view of getting ideas to be used at the Uni- versity of Illinois.

Hale of Portland, Me., son of former United States Senator Hale, and a score of other men active in politics attended a conference at the home of Grafton D. Cushing, speaker of the Massachusetts house. After Col. SOCIALISTS PROTEST.

Ask President and Governor to Pro- tect Children.

Chicago, Feb. 27.—John M. Work, secretary, tonight sent a telegram from the national headquarters of the Socialist party here to President Taft and similar messages to Governor Foss of Massachusetts and Mayor Scallan of Lawrence.

The telegram in part follows:

"The Socialist party of America, as the political expression of the working class, by action of its national executive committee, demands that you use the power vested in you as the chief executive of the United States, to protect workingmen, women and children of Lawrence, Mass., from the violence of lawless officials. It is monstrous to wreak vengeance upon helpless children. We protest against it."

HOLD CLASS BANQUET.

Knights of St. Paul Enjoy Spread at Christie's Church.

The Knights of St. Paul of the Central Christian church held a banquet Tuesday night in parlors of the church, this being the climax of a contest on attendance, which has been in progress for the past number of weeks. The young men in this organization are members of the Sunday school class, taught by T. F. Smith. The young ladies of Mrs. George T. Douglas' class and their teacher sought to make the occasion all that it should be for the young men and prepared and served the banquet, which was an excellent one, the menu consisting of chicken pie, mashed potatoes, rolls, vegetable salad, lady fingers, bon-bons and coffee. The church parlor was also beautifully decorated in carnations and roses.

After all had enjoyed the supper, Lewis M. Osborne, the president of the class, rapped for order, and called upon the following, who responded to excellent toast:

Who Wins—Rev. Clyde Davis, the pastor.

Not So Bad After All—C. L. Mathis, superintendent Sunday school.

The Victors—Roland Stice, captain of whites.

The losers—Clay Apple, captain of blacks.

General Review of Year's Work—T. F. Smith, teacher.

In the contest the white side won by a margin of 17 points. Another contest will be started soon. The class has a membership of about twenty young men and the officers are:

TALKED POLITICS WITH FRIENDS

ROOSEVELT AND MENT BACK OF HIM CANVAS SITUATION.

Movement at Present is Without National Leader—Defines Platform by Pointing to His Recent Speeches—Angry at Camera Men.

Boston, Feb. 27.—The political situation in New England was canvassed at length today by Col. Roosevelt and the men who are leading the Roosevelt movement in the north-eastern states. Governor Robert Bass of New Hampshire, Fred P. Hale of Portland, Me., son of former United States Senator Hale, and a score of other men active in politics attended a conference at the home of Grafton D. Cushing, speaker of the Massachusetts house. After Col. Roosevelt had received reports of the probable line-up of New England's 88 delegates to the national convention he put politics aside for the time, and went to Cambridge to talk literature with the learned men of Harvard.

No National Leader.

It developed today that the Roosevelt movement is at present without a national leader.

Those who have been consulted with Col. Roosevelt since he has declared his readiness to accept the nomination say that he has stated that he cannot take personal charge of the movement. Col. Roosevelt said today that it was his present intention to return home and spend as much of his time as possible at Oyster Bay, with occasional visits to his editorial office in New York.

Col. Roosevelt was asked as to the truth of a report that Senator Dixon of Montana would be the man at the helm. He replied that Senator Dixon would be acceptable to him, and that it had been expected that the senator would take charge. Times in his family, however, had made it necessary. Col. Roosevelt said, for the senator to abandon his plan for an indefinite period.

Denies Attack on Taft.

Reports published today that he had made an attack upon President Taft brought forth a heated denial from Col. Roosevelt, who declared that they were unequivocally false. He also issued a statement in which he defined the platform upon which he will make his fight, in which he pointed to his recent speeches as the best expression of his opinions.

At Cambridge Col. Roosevelt was followed constantly by automobiles filled with reporters and photographers. Once the colonel walked up to a pursuing automobile, opened the door and said that he did not wish to be followed as his visit to Harvard was of a purely social nature. But the automobiles still pursued him. Then the colonel became angry.

Angry at Camera Men.

As he alighted from the motor car at the Hasting Pudding club the camera men were driven up and aimed their machines at him. The colonel waved his arms in protest but it was useless. Again he went to the automobile and demanded that the pursuit stop. He was met with a polite but firm refusal. The colonel then sharply about and fled into the club house.

"Yes," he confessed later, "I was angry. It isn't right. My picture has been taken several thousand times since I came to Boston and I haven't even changed my hat."

Col. Roosevelt took luncheon with his son Kermit and some friends, talked books and came back to Boston to spend the night with Stuyvesant High.

He returned to Cambridge early in the evening, long enough to take dinner with President Lawrence Lowell, of Harvard.

AMERICANS KILLED

Reported Put to Death by Mexican Soldiers—Charged With Being Outlaws.

Douglas, Ariz., Feb. 27.—The revolutionary split in Douglas which had been smoldering for several weeks, burst into fury today when a report was circulated that the seven Americans who were captured at Fronteras, Mexico, last week and charged with being outlaws were to be put to death by the Mexican soldiers.

The Americans were caught with arms and ammunition on their persons, and the Mexicans charged that they were on their way to join the revolutionists. The Americans were placed under guard and today were brought to Agua Prieta by train. Immediately a guard was formed and the men started on a march to Cananea, where, according to Commissioner Serrano of Agua Prieta, they will be given a fair trial. Few persons here, however, believe the men ever will reach Cananea, but that they will be shot tonight and the report brought back that they were killed while trying to escape.

Mexican Rebels Hounded.

San Antonio, Texas, Feb. 27.—A band of 27 Mexican rebels that had crossed the American side and attempted to steal a herd of cattle were completely routed Friday afternoon in a running fight with fourteen cowpunchers thirteen miles down the Rio Grande river from Presidio, Mex. AT SOCIALIST HALL

R. A. Maynard Discussed "The War of the Classes" Tuesday Night.

Mr. R. A. Maynard of Colorado, the third speaker on the Socialist League course, lectured at Socialist hall last night to a good sized audience.

Mr. Maynard possesses exceptional ability as an orator, and is a clear and logical reasoner. In handling his subject, "The War of the Classes," he confined his argument to the facts of everyday life and left nothing unsaid in proof of the position of the Socialists with reference to the cause of the class conflict.

The speaker held that "class distinctions were inherent in the present forms of society and were inseparable from the private ownership of the means of life."

He showed that the whole structure of civilized society was based upon the theory of class distinctions and that its origin was coincident with the beginning of the private ownership of things. He presented a brief outline of many of the most notable wars of history and showed that they were all class wars fought in the interests of conflicting economic powers, the outcome of which in every instance was decided in favor of the one possessing or controlling the greatest wealth. The speaker held that every change in the methods by which people live, the progressive development of the productive tool, the increasing number and the expanding methods of the race as they pushed the frontier westward, coming in contact with new conditions, making new methods necessary, were responsible for changes in governmental forms.

"That all governments are but the political expression of the economic power of the owning class and as such are class governments, that their chief function is to police society for the protection of private interests."

Mr. Maynard argued that material interests governed the actions of individuals and dominated the policy.

Governments had done so since the beginning of the institutions of private property which made "the desire for things a dominant factor of race life," and that the "war of the classes" would continue to develop more and more as the struggle for existence becomes more intense.

The speaker said that the advanced methods of mechanical and industrial development had made necessary the great combination of capital which resulted in continuous reorganization, concerning the interests of the owning class and throwing numberless workers upon the labor market to meet against each other for a bare existence.

The speaker held that Socialism would do away with every form of class conflict, by the reorganization of society upon the basis of a common interest. That the private ownership of the tools that are socially used would be succeeded by co-operative ownership and democratic management, thus destroying the class of conflicting interests.

It was declared that the people had reached the stage where they would not be satisfied with anything short of the full social value of their labor and that Socialism was the only means whereby it could be acquired.

Mr. Maynard's wife, Miss Tupper Maynard, is the next speaker on the program and will speak in Socialist hall on Tuesday, March 5, 1912.

POWERFUL SERMON ON PRODIGAL SON

Rev. Walter E. Spooner Moves Men to Repentance Through Wonderful Preaching—Subject To Night, "A Startling Question."

ADVICE TO YOUNG MEN.
Young man, use that your character is right, mind in the long run your reputation will be right.
Young man, you may be better than your reputation, but never better than your principles.
Young man, the way to gain a good reputation is to endeavor to be what you desire to appear.
Young man, if you would create something you must BE something.
Young man, you can't dream yourself into a character, you must hammer and forge one for yourself.
Young man, your character is a diamond that scratches every other stone.
Young man, your proper self regard becomes improper as soon as you begin to value reputation more than real character.
Young man, your reputation is what men and women think of you; character is what God and angels know of you.
Walter E. Spooner.

Rev. Walter E. Spooner based his sermon last night on the parable of the Prodigal Son. Every evangelist has used this plain, simple story of the wandering boy in an effective appeal to the unsaved, but it is doubtful if any more thoroughly aroused men to a realization of the Heavenly Father's love for His children and His joy over their return to the better life. A deep religious spirit prevailed while the minister preached. Mothers and fathers, whose children had drifted away from the Christian teachings of the home, prayed and those who had been living in sin, were moved and their souls were stirred.

Every seat in Northminster church was occupied last night and those who have been attending every meeting, pronounced it the greatest service of the revival. A spirit of reverence and prayerful thoughtfulness was in evidence throughout the song service as well as during the minister's preaching. When the Organ Quartet sang "Where is My Wanderer" there were many damp eyes in the audience. The quartet also sang "Is He Your Saviour?" the solo part being taken by Walter C. Vieira and Carl Antrasser sang in German "The Little Brown Church in the Vale," the choir joining him on the chorus. Director again, last night, called on the men to who were in several of the words. The effect was beautiful.

Rev. Mr. Spooner used as the subject of his sermon "An Old Time Drama." "This story of the prodigal son," he said, "so clearly, so simply and so plainly told by the Master of men, we hear to day with as much interest as did those who listened at the feet of Jesus. The fact that it is one of the greatest stories in history. It is a drama in three acts. In the first act we have pictured the young man leaving his home, in the second, his life in a foreign land, and in the third, his return home, a grand climax to a great play, which is acted every day in the lives of many young men and women. The pastor spoke of the interference shown by some sons and daughters toward their parents and of the heartaches caused by their actions. The sermon was one of the best effects when the audience was extended eight went forward.

Mr. Spooner announced that to night he will preach upon a question that should startle every man in Jacksonville and no doubt he will again be heard by a large audience.

Building for Permanency

Everybody likes to build, but nobody likes "repair jobs." They inevitably represent an additional investment without any addition to value. That point is worth digesting.

When you build, whatever you build, you like to build "for keeps."

Some people change their minds about styles in building; the same as wearables; our tastes develop and result in changes in our wants, but nobody changes his or her mind as to wishing to get the greatest possible endurance

or wear out of the things they buy, and especially is this true of building investments.

Those who build for time have a care in the selection of lumber. We had this in mind in buying our extensive lumber stock and we would be pleased with a chance to give you a figure on whatever lumber bill you may have in mind. The prices named will be satisfactory and the **lumber qualities** will more than meet your expectations.

PAPER ON METABOLISM

Miss Lucy Gillett Presents Subject Before Meeting of the Science and Mathematics Club.

The regular meeting of the Science and Mathematics club was held Tuesday evening at the Woman's college. A large number of the members being present. Miss McLaughlin, vice president of the organization, presided and the paper of the evening was read by Miss Lucy Gillett, head of the Home Economics department of the Woman's college. Her subject was "Metabolism and the Nutritive Value of Foods." The subject was handled in a most scholarly manner and was followed by a discussion, many taking part. Following the discussion a short social time was spent and light refreshments were served.

Miss Gillett treated her subject under the following heads: "Meaning of Metabolism"; "Influence of Proper Consideration of Nutrition on Health of the Individual"; "Composition of Foods"; "Chemical Changes of Food in the Body"; "Importance of Mineral Salts as Considered by Chemist and Physiologists"; "Proper Balance of Protein"; "Things that Enter into Metabolism. Their Influence on General Health."

In defining the subject Miss Gillett said: "Metabolism as used by the biochemist is the process of changing the food we eat into living cells in the body to promote growth, to repair the waste brought about by the constant wear and tear of life, and for the production of energy in form of muscular work or heat. To state briefly, metabolism is a chemical process by which living cells are constructed or repaired and energy furnished for our various activities and for body temperature."

The food, however complicated its preparation, may all be divided into the five food principles, water, mineral salts, carbohydrates, fats and proteins. The carbohydrates are the simplest of the remaining food principles and the ones most easily metabolized. Digested carbohydrates are absorbed by the walls of the intestines in the form of single sugars and carried to the liver where they are stored in the form of insoluble glycogen or animal starch. The blood cannot hold .02 or 1 per cent of sugar at a time. As blood passes through muscle sugar in it is easily oxidized to produce energy or it may be stored as glycogen. The blood thus deprived of its sugar contents called upon the reserve in the liver and the supply is kept up to normal as long as any glycogen remains in the storehouse.

Two types of enzymes everywhere present in muscle indicates that the glucose in muscle is oxidized to CO₂ and water indirectly through the lactic acid stage. When the supply of carbohydrates is so abundant that it is in excess of the needs of the body and accumulates in the liver and the muscles have no tendency to increase their store of glycogen, a further supply tends to be converted into fat as proved by experiment and as shown by determining the amount of body fat formed by observing the amount of carbon fat stored.

"We believe that physiologically rational diet of an adult should be a palatable combination of foods which contain proteins, fats and carbohydrates with due regard for the foods which contain mineral salts in such proportions that there is a maximum of energy with a minimum of labor."

Recent scientific investigations have proved with innumerable experiments, that the level from which people do habitually decline, the average commonly called normal, is not normal at all. The standard of health might be much higher if men would only apply in advance the same principles which applied afterward overcome pathological conditions. Endurance may be stored up. It then represents a gain in current capacity and length of life. It is a pledge of freedom above all, a gain in efficiency, increasing the time both in a day and a life in which the body and the mind will respond cheerfully to the demands of the will. Whatever promotes health, tends toward reserve power, and reserve power tends toward everything that makes life worth while."

tax is first for such payment and
not that they were trying in any
way to evade the law. The police
are required to halt vehicle drivers

STORY OF "BURNT NAIL."
At the regular faculty meeting of
instructors of the Woman's college
held Tuesday afternoon, Miss Grace
Cowgill, head of the German depart-
ment, gave a very fine account of
"Burnt Nail," a story of Ireland.
The sagas or folk lore of that far
away country are as interesting as
any ever heard. That of Burnt Nail
dates back to the eighth or ninth
century, when the Norwegians set-
tled in Ireland as the result of being
driven out by William, the fair-
haired. Deeds of love, war and ser-
vice, with the touch of the mythical
makes the sagas much treasured.

term of office the most successful in
the history of the order.

BEGINS PASTORATE IN CANTON.

Rev. J. V. Whiting Has Accepted Call
to Baptist Church There.

Rev. J. V. Whiting, formerly pas-
tor of the First Baptist church in
this city, recently accepted the pas-
torate of the First Baptist church
in Canton at a salary of \$2,000 a
year. The church there is in a
flourishing condition and the work
has started off very auspiciously.
Mrs. Whiting was a resident of Can-
ton prior to her marriage. In his
letter of acceptance, Mr. Whiting
said to the people of church through
the pulpit committee:

"What is in the future I do not
know and while I have a weighty
sense of the responsibility laid upon
me I am not anxious about the final
issue. Believing in the sincerity and
unity of this church with respect to
its own future welfare, believing in
the loving interest and careful guid-
ance of the Almighty in having faith
in my call to service where I may
be led, I had a forward look of
hope and accomplishment."

"Therefore after careful delibera-
tion and consideration of the situa-
tion from many angles of vision it
is my decision to accept the call to
become pastor of the church. Pray-
ing the love and wisdom of the Al-
mighty may be upon us all and that
Christ with his unifying spirit may
abide with us, I remain, very sin-
cerely yours in service."

also displaying the special induc-
ement to buyers of the range. This
week the ware they give with the
range is especially desirable and
useful and will certainly be an in-
ducement to all who want a useful
article in the kitchen. At the same
time hot biscuits and steaming coffee
are served so that all who desire the
nice lunch will be welcome whether
they buy or not.

Call and see the wonderful range
in operation and look over the list
of satisfied customers using the

MEN WILL RETURN TO WORK AT BIG FACTORY

Lockout of L. S. Kent-McCarthy Men
Is Settled and Cigar Makers Will
Be at Benches To Day.

The lockout at the L. S. Kent-McCarthy
Co.'s factory, known usually as
"The Big Shop," was declared at
an end Tuesday, after a committee
from the local Cigar Makers' union
and A. E. Franks had reached an
agreement. The men will return to
work this morning.

While work is to be resumed at
the factory at once, it is understood
that decision on some points in-
volved in the controversy will yet be
ruled upon by high officials of the
union. Mr. Franks, when asked
about the settlement last night had
no statement to make.

J. E. Curry, who has been a pa-
tient at Passavant hospital, expect-
ed to return to his home to day.

TAKE TEN YEAR LEASE.

Government Rent Building For Post-
office at Waverly—To Be Finely
Equipped.

A deal has been consummated by
the government whereby they have
taken a lease for ten years on the E.
B. Wyle building at Waverly, which
will be used for the postoffice. The
office is now located in the Tiofen
building, next door south.
Mr. Wyle will have the building
completely remodeled and the fix-
tures to be installed will be of the
latest models. The building will be
lighted by electricity and gas. They
expect to have everything ready for
occupancy by April 1.

The Waverly postoffice had a post-
al savings bank installed on Jan. 18,
1912, and it has been doing above
the ordinary business of towns the
size of Waverly. The office is rated
as third class and comes under the
appointment of the president. B.
Reinbach is now the efficient post-
master.

R. A. Gates, who has been ill for
a number of weeks, was able to be
at his office part of Tuesday.

ROADS ARE BAD.
R. E. Phillips, living a few miles
east of Jacksonville was here yester-
day. He says the roads are very
bad now. Early in the morning
they are frozen hard enough to sup-
port horses, but when the sun gets a
chance, a melting process takes
place and then it is mighty hard
traveling.

BLUFFS ROUTED

"Independents" Prove Too Slow for the Rount College Basketball Five

Rount college had a walkaway last night in basketball when they played the "Independents" of Bluffs, the score being 73 to 10. The game was so one-sided that from the standpoint of the spectators the keen interest was somewhat decreased. The college had planned for a game last night with White Hall but they sent up word that they could not come so the Bluffs game was scheduled. Coach Harmon put in all his second team men in the second half. On next Friday night the first team will play the college alumni team.

The following was the lineup:
Rount—Donovan, Alexander, Harmon and Groves, forwards; Bergschneider, center; Butler, Keating and Mandeville, guards.

Bluffs—French and Langford, forwards; McCullum, center; Burris and O'Brien, guards.
Scores—Field goals, Donovan 2, Alexander 10, Harmon 12, Groves 12, Keating 1, French 1, Langford 2. Foul goals, Groves 1, McCullum 4. Officials—Referee, J. Phillips; timekeeper, Buland; scorer, Cosgriff.

QUEER MARINE ANIMAL.

The "Portuguese Man-of-war" is a Veritable Fairy Ship.

The "Portuguese man-of-war" is held to be one of the most beautiful of all the so called pelagic animals and is a veritable fairy ship, with sail that can be elevated or lowered, that can throw out a dredge or haul it in—in short, one of the most attractive of all marine animals and at the same time one of the most dangerous.

This little animal has been called a "poem in satin," yet it conceals under its attractive exterior an armament that is capable of overpowering a foe of a thousand times its size. In fact, the physalia stands in the same relation to many other marine animals of its size as a well fitted torpedo submarine boat would to an old line of battle ship of the Constitution class.

If one but touch the purple tentacles a realizing sense of this power is at once experienced. The finger stings as if needles had been thrust into it, and when the tentacles are placed upon a spot where the flesh is sensitive the pain can only be compared to that produced by melted lead or boiling oil. One scientist nearly lost his life in an engagement with the little craft. The man had a habit of swimming on his side, an unfortunate habit in this case, inasmuch as his view to the right was obstructed when one day he swam over the tentacles of a large "man-of-war." He was in about seven feet of water, and the contact immediately gave the swimmer such a shock that he almost lost the power of motion and sank.

As he struck bottom with his feet he pushed up and partially recovered himself—sufficiently at least to call for help. Some laborers at work near by sprang into the water and carried him ashore. By that time he could breathe only with extreme difficulty, this being the most serious symptom. The purple mass was scraped from the skin with knives and razors, but it seemed to have sunk into the flesh. For six or seven months afterward he could very readily have passed for a tattooed man, the entire middle and lower portion of his body being covered with the most fanciful tracings.—Harper's.

CROSS ROADS.

The members of the Woodsen Ladies Aid was very sorry that they to have been delayed at the meeting Saturday of the Cross Roads vicinity as they would all have liked to have been there.

Mrs. James McFall spent most of last week at her daughters, Mrs. Reuben McGilgusson.

We are very sorry to learn that Mrs. James Hitch is a sufferer of rheumatism.

C. E. Taylor and Joan Johnson was a Saturday visitor in the city. John Hombrough Jr., spent Saturday and Sunday in White Hall with friends.

We are very sorry to hear of the sad illness of Mrs. James Oxley. She was taken to Springfield hospital for an operation and is now seemingly improving. Mrs. Oxley is the only daughter of Mr. and Mrs. Harvey Spores of Franklin.

We are glad to know that Mr. and Mrs. James Devore have come back to Illinois to live and we all gladly welcome them.

Frank and Lula Hombrough attended the funeral of Elmer Sandberg Friday.

The snow storm blocked the road so Miss Maud Gallagher could not get to her school a few days last week.

James Green is expecting his cars in to day to load his household goods and stock where he will move to his new home in Missouri.

Mrs. Green will not go for the present time and will make her sisters a short visit before going. No doubt two will miss them.

Miss Bessie McGilgusson was a very busy shopper last Friday in the city.

FIRE COMPANIES IN EARLY SIXTIES

Rival Organizations Furnished Protection For Jacksonville Homes.

Back in 1860 Jacksonville had two fire companies and there was considerable rivalry to see which could do the most prompt and efficient service when fires broke out. The first organization was known as "Union Fire Company No. 1" and their engine house was on the north side of Court street between Main street and East street. In fact the headquarters of the fire department in later years was on East Court street until the present city hall was built. The other organization in 1860 was known as Rescue Company No. 2 and the engine house was on the east side of South Sandy street between the square and College avenue. The personnel of the companies was as follows:

Union Fire Co. No. 1—
John C. Lee, president.
John W. King, vice-president.
James Mitchell, foreman.
E. S. Steyer, first assistant.
Charles O. Sperry, second assistant.
James Dayton, secretary.
E. T. Eads, financial secretary.
W. D. Crowell, treasurer.
Rescue Fire Co. No. 2—
William B. Adams, president.
James Buckingham, vice-president.
Ed. S. Towner, secretary.
Isaac S. Hicks, treasurer.
David, foreman.
Wm. R. Hayden, Asst. foreman.

POULTRY MEETING

Executive Committee Is Increased From Five to Six Members—Association Will Hold Banquet March 21.

The members of the Morgan County Poultry association held their regular meeting in the office of Attorney W. E. Thomson Tuesday evening, with a good attendance. In the absence of R. C. Reynolds, J. H. Rayhill, Jr., acted as presiding officer. The minutes of the last meeting were read and approved. J. C. Weber, who has been acting in the capacity of corresponding secretary, handed in his resignation. He felt that he did not have the time to give the work. J. H. Rayhill, Jr., was elected to fill the office of secretary-treasurer.

The executive committee was increased from five members to six members and Mrs. John Clark was elected to make the sixth member. It was decided to hold a banquet on March 21 and the executive committee, together with D. T. Heimlich, are to act on general arrangements and issue invitations. The committee chosen also to look after the banquet were Mrs. Lambert Hastings, Mrs. John W. Clark, Mrs. A. T. Franz, Miss Josie Haingrove and Mrs. Walter T. Hardy.

The ladies of the association will prepare and serve the banquet and a fine spread is promised with plates at fifty cents. The banquet will probably be held at the Y. M. C. A.

READING FROM DICKENS.

Mrs. P. C. Thompson Reads "Cricket on the Hearth" at Public Library.

Mrs. Perry C. Thompson delighted a large audience Tuesday night at the public library when she gave a reading of Dickens' "The Cricket on the Hearth." The ability of Mrs. Thompson as a reader is well known and in the interpretation of Dickens she especially excels. The different characters in the book were clearly and artistically depicted, their distinctive traits being excellently set forth, and the entertainment was thoroughly enjoyed and appreciated.

To add interest to the occasion, Miss Webster had asked all who had pictures, curios or books relating to Dickens, to bring them to the library that others might enjoy them. Miss Anne Jackson and Mrs. B. W. Smith loaned to the library splendid collections of pictures and books, the assortment already at the library were arranged in portfolios and placed at the door leading to the reading room and also at the entrance to the lecture room. Many persons stopped last night to study them and the pictures were an appropriate feature in connection with the hour of reading by Mrs. Thompson. The following young ladies, who are pupils of Mrs. Thompson, acted as ushers during the evening: Misses Elizabeth Myers, Helen Killam, Xenia Roberts, Alma Blakeman, Mary Hettick, Mabel Hess and Velma Dugger.

RECIPE FOR ANGEL FOOD CAKE.

White of 11 eggs, beaten stiff. When eggs are beaten to about half of the required stiffness, put in one level teaspoonful of Cream of Tartar. After beating the eggs add 1-3 cups of granulated sugar, sifted seven times. Then add one teaspoonful of Roberts' Vanilla, and one level cup of Sleepy Eye Flour, sifted seven times. Do not stir in the flour, but fold it in carefully. Bake in a pan that has NOT been greased, 3/4 of an hour, beginning with a slow oven and increasing the heat gradually. Take out of the oven and turn the pan up side down, placing something under the edges of the pan so that a draft of air can pass under the cake.

Cake tins, made especially for angel food cake can be purchased; such tins have a projection at the top so when they are turned up side down there will be a space between the top of the pan and the table on which the cake is set. This will also keep the cake from falling.

BROUGHT UP TO DATE.

Pittsburg Chronicle-Telegraph: In a Jacksonville court the other day a lawyer quoted Shakespeare: "Who steals my purse steals trash," to a deaf judge.

"What's that?" the judge demanded.

"Who steals my purse steals trash," the lawyer repeated.

"Was something, nothing; 'twas mine, 'tis his, and has been slave"—

"Loudly! I can't hear you," said the judge irritably.

"Who steals my purse," repeated the unfortunate lawyer, "steals trash. 'Twas'—"

"Can't you speak up?" said the deaf judge.

At this point the erler thought it time to interfere. He bent over the judge and shouted in his ear:

"He says, sir, that anybody who steals his pocketbook won't get nothing."

WILL DISSOLVE TOWN CORPORATION

Murrayville Votes to Reorganize Village at Special Election Held Tuesday—New Corporation Expected by August.

At a special election held Tuesday the village of Murrayville voted to dissolve the corporation. The vote stood 81 for and 5 against. Considerable interest was manifested in the election and while the entire vote of the town is 140, the vote cast shows that most of the people were ready for dissolution.

For some time the people have been agitating the question, believing that certain revenues were kept from the village by those who were on the outside. The withdrawal of owners of land adjacent to village was made possible by a law on the statute books, a petition to the secretary of state being necessary. The recent law passed which permitted a village to dissolve if the proper vote was cast, has given the Murrayville citizens a lever with which to force back those on the outside. The next move will be to settle up the affairs of the town and they expect to get the taxes adjusted by July. The people then will get up a petition for a dissolution and present same to Judge E. P. Brookhouse and he will designate a time when the vote will be taken on the matter. The new organization should be perfected by some time in August, so it will be in plenty of time to levy the taxes for the year 1913.

As the town lays now it is a mile north and south and as the town has grown toward the north the new boundary will be marked by a circular line a mile in length from the center of the village. The new adjustment will take in farming lands owned by Arthur Masters and C. F. Strang. The present corporation has existed for 26 years.

The town board is composed of Mayor J. L. Wyatt, and the following trustees: Messrs. E. A. Whitlock, J. T. Warecup, R. L. Wyatt, W. T. Cook, W. B. Worrall and J. E. Thompson.

A LOSS TO MANHATTAN.

BROOKLYN CHURCHES.
Congregationalist—Dr. James G. Roberts, who died at the home of his son, Charles H. Roberts, at Flushing, Long Island, was the oldest member of the Manhattan-Brooklyn Association of Congregational Churches, and the oldest member of the Manhattan Ministers' association, having reached his 82d year. But it was a common saying among the ministers of New York and Brooklyn that "Dr. Roberts is the youngest of us all." The youthfulness of his spirit was peculiarly manifest in his eagerness for all new truth. He was the first to read the newest books of theology or poetry or general literature, and grew more and more liberal in his theological views with every year of age. He always took part in the ministerial gatherings and quite a number of the younger brethren in the modernity of his outlook. He was a mystic and his remarks always injected the gathering with a sort of spiritual atmosphere.

When he had reached his 80th year his fellow ministers of the Manhattan association presented him with a purse of gold. He had an idea of what was being done when Dr. A. J. Lyman spoke for the association and tendered him the purse. The response was felt by all to be one of the most beautiful things heard in years, as Dr. Roberts related the story of his own religious and theological growth through his struggles to the present peace where "the love of God for me and my love of God and man" summed up religion. He was a lover of poetry and great lines of his poets flowed through his speech as though they were his own. He knew Henry Ward Beecher intimately, and was dean of the Clerical club, founded by Mr. Beecher. He was also an intimate friend of Mr. Lincoln. He came here from England as a youth and was graduated in theology from Bangor seminary. He had held pastorates in Jacksonville, Kansas City, Brooklyn and other cities and was pastor at Dunton, Jamaica, Long Island, when he died. He preached up to the end and knew no old age.

Dr. Roberts was an uncle of Mrs. James A. Parsons of this city.

HE BOUGHT COWS.

A Kansas City live stock journal says:

J. P. Burns of Woodson, Ill., has been sizing up the cattle situation and comes to the conclusion that he will not tackle steers. "Feeding steers are costing just about as much now as corn fed steers that have been fed three months at a very heavy expense," Mr. Burns said.

"This trip I bought cows. They looked better to me than steers. If I can raise a calf each for all the cows or nearly so, and let them stay with the cows until late in the summer, I have two ways to get out. With steers there is but one and that is not a very safe way. I can sell the calves and hold the cows, or dispose of the cows and keep the calves, another year. We have got to raise some cattle, that's all there is about it. This paying such high prices for steers is a bad move."

HEAD TO GO AFOOT.

Payton Henry of Youngblood Prairie was a visitor in the city yesterday. He said he started horse back out encountered in the road snowdrifts so deep that he had to abandon his horse and go afoot. The top of the drift was frozen so hard that it bore him easily and he said it would have held up the horse. He faced it to Murrayville and there took the train for the city.

The Reliability

of the meats and meat products we sell you is worthy of more than passing consideration.

Occasionally one of our meats MAY be a little higher than another's quotation, but when the VALUE is considered it is not so. A small perfect piece of meat goes farther and is more nourishing than a large coarse piece, at the same price. Bear that in mind when buying. Always demand and insist on getting QUALITY for your money.

We Are Compelled to Raise \$8.000

In the Next Few Days to Pay Off Some of Our Spring Bills Now Due

Mistakes will happen to anybody, and we are no exception to the rule. A year ago this month of February we were doing all kinds business on Spring Merchandise. So we guided ourselves by what we did then, and consequently our Mr. Olian went to New York in January and bought More than Eight Times as Much for this spring as he did a year ago---thinking of course that we would at least duplicate the enormous business of a year ago.

Now Our Spring Bills Are Due and They Must Be Paid

The wholesale houses in New York don't want to listen to such excuses as "bad weather," "a little early," or other such nonsense, all they want is their Money. **Nothing Else Will Do.** The only way we see clear to raise the amount needed is to offer our Spring Stock of Coats, Suits, Skirts, Waists and Millinery at such low prices as will cause every woman and girl in this city and vicinity to make a straight Bee Line for the Emporium and Buy Her Spring Outfit.

Our Stock is larger than all the others combined, and in each article you will find the Best Material, Style and Workmanship,

Wholesale Cost Or Selling Price Will Not Be Considered

We Will Sell at One Price or Another in Order to Realize Cash

The severest test of any shortening is in hot bread.

We want you to test Crisco in hot biscuits.

It has none of the disagreeable features so characteristic of compounds or mixtures of oils and fats. Its use is not attended by the slightest suggestion of the offensive odor which accompanies the use of cottonseed oil or lard compounds.

Open a Crisco biscuit while it is hot. Notice the fine biscuit flavor.

HOME FROM CALIFORNIA.

Mr. and Mrs. Iven Wood of Pisgah have returned from their extended visit in southern California and come back well pleased with their experience in the land of oranges and flowers. Claremont on the Santa Fe was their objective point and there they left the railroad and proceeded a mile and a half to the homes of their sons, Homer and Arthur. Homer has an orange grove of ten acres in full bearing and it suffered but very little from frost and has a fine crop. The writer saw a splendid orange Homer sent to Miss Marie Finney of the Jacksonville National bank and Mr. Wood said it was a sample of a large quantity raised by the young man.

Arthur has ten acres also in bearing and ten more of young trees which he is carefully cultivating.

Both the sons are doing well and have seemingly regained their health which is the great consideration.

Mr. Wood says the frost in that locality this winter has been the worst in years and the orange groves have been killed or badly injured, both oranges and lemons. Some nurseries also seem to have been totally destroyed. He says there is money in oranges wisely managed, but like everything else it requires skill, experience and constant attention.

While absent he visited Los Angeles, Pasadena, Redlands, Long Beach and other places. Was at the great aviation meet two days after the fatal accident. He saw eight machines in the air at once which was a great sight. After all though, like a sensible man, he prefers old Illinois to the land of residence.

FROM A COW'S STOMACH.

A young man yesterday was showing a light ball, dark in color and about two and a half inches in diameter and asking people to guess what it was, but no one succeeded and all were surprised to learn that it came from the stomach of a cow and was hair the animal had swallowed in the course of years and which had been indigestible and formed into a ball with a hard crust on the outside.

NORTONVILLE.

Wednesday and Thursday of last week were times of the old fashioned snow drifts, making travel among the people as the homes running close and west were blocked and many places had to be shoveled out before travel could be resumed. The mail carriers from various neighboring points could not make their rounds. Mrs. Borat Vedder is sick. Mrs. Gus Henry is laid up by sickness. Thomas Story and Olan McLamar shipped two cars of cattle to St. Louis last week and landed in the blizzard. Mr. Story, Mr. McLamar and Jesse Vander went down on the Thursday. If neither mail for Nortonville must be addressed to Murrayville as the postoffice there will be discontinued at the end of February. A social dance was given the young people of our neighborhood by Mr. and Mrs. Peyton Henry Thursday evening at their fine home, two miles west of this place. W. F. Henry moved a house with his engine for Alex Jackson last week. Elmer Newby moved to the Thompson Henry farm last week and Mr. and Mrs. Samuel Seider moved to the one vacated by him.

WILSON'S CAMPAIGN.
